Mohali | Oct 2021 - May 2023

- Developed responsive layouts using HTML5, CSS3, and Bootstrap
- Implemented user-friendly UI based on design specifications
- Improved engagement and reduced bounce rate through UI enhancements
- Collaborated with UX designers and developers for product delivery

Sahu Exports
3D Designer
Noida | Aug 2019 - Oct 2021

- Created garment visualizations using CLO 3D based on buyer specifications
- Developed textures and mockups using Adobe tools

Scorpios Apparels Pvt Ltd
Junior Designer
Faridabad | May 2017 - Jun 2019

- Researched current fashion trends and determining what consumers will like.
- Designed sketches for new products with a design team .
- Developed CAD sketches and create mood boards with design team.

Key Projects

Filejet – Entity Management Dashboard
Web | 2025

- Worked independently on the frontend development of the Filejet Entity Management Dashboard, focusing on revamping the existing dashboard UI while maintaining the legacy classes and properties to avoid impacting unchanged modules.
- Converted updated Figma designs into responsive and pixel-perfect interfaces using HTML5, CSS, JavaScript, and Bootstrap.
- Integrated Google Charts and DataTables for dashboard analytics and table management features.
- Built reusable component-based UI structures to maintain consistency across multiple dashboard modules and improve development efficiency.
- Collaborated closely with Figma designers to review implemented screens and ensure accurate UI execution.
- Performed UI testing with QA teams, resolved frontend issues, and managed code deployment through Git for backend integration and feature implementation.
- Worked closely with backend developers to ensure seamless integration and maintain a consistent user experience across the platform.
